

Hexagon Theater Presentations

Join Us Every Hour on the Hour for Engaging Dialogue and Demos in the North Hall, Booth N-12325

TUESDAY, MARCH 14

10AM

Lightning Talk: Reimagining Construction from the Ground Up

What if all projects were on time, on spec, on budget and on safety? Leica Geosystems' Holger Pietzsch outlines the key strategies contractors need to implement to make the physical work dirt simple.

2PM

Solution Spotlight: New Product Launches from AGTEK

AGTEK's Steve Hicks walks through the latest innovations.

[ADD THIS SESSION TO YOUR CONEXPO SHOW PLANNER](#)

3PM

Tech Talk: Leveraging AGTEK Data through Collaboration: Mobile Apps, Google Earth and Machine Control

Donnie Quinn & Ryan Doomey show you tips and tricks to maximize productivity.

[ADD THIS SESSION TO YOUR CONEXPO SHOW PLANNER](#)

4PM

Ask the Experts

Jason Lambrich of DirtPrep Solutions answers your questions about Leica Geosystems machine control, AGTEK software, outsourcing takeoffs and 3D models, and more.

WEDNESDAY, MARCH 15

10AM

Lightning Talk: Building Connected Ecosystems

Connected ecosystems are imperative for saving time, tracking progress, and reducing complexity, rework and delays on construction projects. Troy Dahlin, heavy construction segment manager for Leica Geosystems, explains where the construction industry is heading on a progressive path from automation toward autonomy.

1PM

Solution Spotlight: Automated risk analysis for construction from Avvir

If 96% of the data generated on a construction site goes unused, then what are you using to make sure your building opens on time, that your revenue begins when you planned for it to and that your budget doesn't go over the allotted contingency? Avvir enables you to identify risks using your existing data and leverage this underutilized construction data. Adam Cisler, senior solutions engineer, will show you how Avvir Inspect and Progress automates risk analysis for construction, keeps you on schedule and within budget, and eliminates unnecessary waste of precious resources.

2PM

Success Story Showcase + Q&A

Hear from Bart Booth, senior account manager at AGTEK, about residential subdivision estimating and haul planning.

[ADD THIS SESSION TO YOUR CONEXPO SHOW PLANNER](#) 

3PM

Tech Talk: Simple Strategies for Building Projects Safely, on Time, on Spec, and on Budget

Leica Geosystems' Holger Pietzsch gives you practical guidance for optimizing your construction operations.

[ADD THIS SESSION TO YOUR CONEXPO SHOW PLANNER](#) 

4PM

Tech Talk: Finding Conflicts and Overcoming Utility Challenges

Gain insights from AGTEK's Dave Rowlett about takeoff and modeling for underground utilities.

[ADD THIS SESSION TO YOUR CONEXPO SHOW PLANNER](#) 

FRIDAY, MARCH 17

10AM

Lightning Talk: Harnessing Technology to Maximize Safety Awareness

Safety is essential on today's fast-moving construction sites. Leica Geosystems' Mike Windsor explains how the latest technology advances keep workers safe while contributing to overall success.
